## Sumpter B&B & Baker City Sites

344 NE Columbia St. Sumpter, Oregon 97877

Friday through Sunday, June 12-14, 2015

**Paranormal Insights** is proud to bring you special classes in some of the Pacific Northwest's most haunted locations. These extended classes will give participants the opportunity to develop their psychic talents in fantastic locations around the Northwest.

Join me for a special class and psychic based investigation of this **Stunning, and very haunted, mainstay of Eastern Oregon mining history.** Built in 1900 as a state of the art hospital, it became a brothel after the mining collapse in 1913, a Masonic lodge after the great fire of 1917, a private home and now a stunning and hospitable Bed and Breakfast.

We have set up a Haunted Hot Spots class and an investigation focusing on psychic research with scientific backup at the B&B for Weather permitting, we will explore an additional site in Sumpter.

Overnight space at the B&B is limited. There are 6 guest rooms. One room has a full and twin bed. One has a queen bed and the rest have one full bed. The B&B will make arrangements at a local motel for those that didn't get a room at the B&B.

We will also be given guided tours of the Adler House museum, with its ghosts, in Baker City, as well as the famous Geiser Grand in Baker City. And, we will be using our psychic skills in the Chinese Cemetery and an optional excursion on Sunday to the old Chinese Wall.

**This class is perfect for people with any level of psychic ability - from the beginner to the most advanced.**

Cost for this fantastic weekend is \$245 including room at the B&B with Breakfast, or the motel, all tour prices and Psychic development instruction fees. Price for each additional person is \$75 for tours and class fees.

Dinner both Friday and Saturday nights are on your own, but we have expert BBQ chef Robert cooking an all you can eat burgers and brats with sides on Friday, and his famous BBQ ribs on Saturday. Cost is for supplies and is \$10 per person each night. Please pay with your registration so we know the numbers and can purchase supplies.

The focus of the tours, training and investigation will be on using your psychic skills as the primary resource, with hand held equipment as a backup.

Please Note: The entities of the B&B are very welcome there, and as far as we can tell, they are not dangerous. We are invading their space. We treat them with the greatest respect at all times. We do not provoke with antagonizing language or actions. The entities are there by choice. We are not there to cleanse, clear or in any other way tell the entities what they do or don't need to do.
