About William Becker:

He is an international psychic medium, educator, speaker, paranormal investigator and researcher. His interest in the paranormal goes back to early childhood when he saw his first full apparition. He is NOT involved in fortune telling. His focus in these classes is on communications with paranormal entities.

PLEASE NOTE: All of the entities at the location are welcome and wanted. There are no trapped souls in the hotel or its grounds. We are there to develop our communication skills with the beings. We are not there to provoke, clear, cleanse or in any way tell them what they need to do. We treat them with respect.
